This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

SUBSCRIPTION OF 1916

ADVERTISEMENT.

The letter and numerals annexed to the title of each book in the following Catalogue denote, in order, the *book-case*, the *compartment* of the book-case, the *shelf*, and the *place* in the shelf, which each book occupies.

The Library has been arranged under the several heads of, 1, Theology; 2, Law; 3, Philosophy; 4, Poetry; 5, History; 6, Voyages and Travels; and 7, Miscellaneous Literature. —In order to reduce the space occupied by the Miscellaneous portion, the other titles have been employed in their widest acceptation. Thus, under the head of Philosophy, are comprehended the several departments of Moral, Metaphysical, and Natural Philosophy, Political Economy, &c. History, in like manner, includes Biography, Original Documents, &c.

Works, coming under any *subdivisions* of the general heads, have been arranged together as much as possible, but not *universally;* as a considerable portion of room would thus be sacrificed, which it was desirable to economize, while the facility of reference afforded by the present Catalogue appeared to supersede the necessity of any more accurate arrangement.

The arrangement of the books is as follows:—

History will be found in book-cases A, B, the upper part of D, and in J.

Poetry, in C.

Philosophy, in the lower part of D.

Voyages and Travels, in the upper part of E.

Theology, in the lower part of E.

Miscellaneous Literature, in F and G.

Law, in H.

All works in the Catalogue without numbers annexed, will be found either in the shelves of the News-Room, or on the tables of the Society.

May, 1844.
